PROFILE

Entry-Level Data Analyst with hands-on experience in SQL, Python, Power BI, Excel, and Google BigQuery, gained through internship and project work involving 1,000+ record datasets and multi-season sports/financial analytics. Skilled in data cleaning, exploratory data analysis, DAX-based dashboard development, and business reporting, with a strong foundation in translating raw data into actionable insights for decision-making.

EDUCATION

Mohan Babu University, 2022 – 2026
B.Tech in Electronics & Instrumentation Engineering
8.48/ 10

Narayana Junior College 2020 – 2022
Intermediate Education (XII)

Gowtham English Medium High School 2019 – 2020
Secondary School Certificate (X)

SKILLS

Technical — Python | SQL (Joins, Subqueries, Window Functions, CTEs, Aggregations) | MySQL | Google BigQuery

Data Visualization & BI — Power BI | DAX | Power Query | Data Modeling (Star Schema)

Data Analysis — Advanced Excel (Pivot Tables, VLOOKUP) | Data Cleaning | Exploratory Data Analysis (EDA) | Business Reporting

Analytics Concepts — KPI Analysis | Dashboard Development | Data Wrangling

Soft Skills — Problem Solving | Team Leadership

PROJECTS

IPL Insights Using POWER BI
- Analyzed 15+ IPL seasons (2008–2025) using interactive Power BI dashboards, identifying team performance trends, player statistics, and season-wise rankings to support data-driven comparisons across teams and players.
- Developed 17+ DAX measures and a structured star-schema data model integrating match, player, and team datasets, improving query performance and enabling dynamic filtering and aggregation.
- Built interactive dashboards with KPI cards, player cards, points tables, cap-holder analytics, and slicers, enabling quick identification of top-performing players and teams across seasons for comparative analysis.

Bank Loan Analysis Dashboard | SQL Server, Power BI, DAX, Power Query
- Performed data cleaning, transformation, and data modeling on loan portfolio data using SQL Server and Power Query, ensuring accurate and analysis-ready datasets.
- Developed interactive Power BI dashboards and DAX measures tracking loan applications, funded amount, amount received, average interest rate, DTI, and MTD/MoM performance, giving stakeholders a real-time view of portfolio health.
- Built Good vs. Bad Loan analysis and visualized monthly trends, state-wise lending, loan terms, employment length, loan purpose, and home ownership, surfacing risk patterns across borrower segments.

INTERNSHIPS

Data Analyst Intern 02/2025 – 07/2025
Code Tech IT Solutions (Remote)
- Analyzed and reported on 1,000+ structured records using Excel and SQL, identifying trends that supported faster, data-driven business decisions.
- Performed data cleaning, trend analysis, and dashboard reporting on real-world business datasets, improving reporting accuracy and turnaround time.
- Applied analytical and problem-solving skills to translate raw data into actionable insights for business reporting.

CERTIFICATES

Data Analytics Training: Besant Technologies | April 2026 *MS Excel, SQL, Power BI, Tableau, Python*

Python Essentials: Cisco Networking Academy

International Conference on Intelligent Electronics and Communication Devices (IECom-2025

Design Thinking & Community-Based Design– IUCEE Foundation

CAD Design & 3D Printing: NIELIT Calicut | Sep 2025

LEADERSHIP

Association of Instrumentation Majors
President
- Led and coordinated technical, non-technical, and soft-skills development events for students.
- Promoted team collaboration, innovation, and student participation across club activities.
